

SATWIK NAIK

Software Engineer | Full Stack Developer | Next.js | React.js | Node.js | Shopify | Salesforce Commerce Cloud

naiksatwik099@gmail.com | +91-9513676469 | linkedin.com/in/satwiknaik

Professional Summary

Full Stack Developer with 3+ years of experience building scalable web applications and headless e-commerce platforms using Next.js, React.js, Node.js, and MySQL. Experienced in Shopify and Salesforce Commerce Cloud integrations, REST API development, and large-scale system migrations. Proven track record of developing performant APIs, integrating distributed systems, and delivering production applications handling thousands of products and orders.

Technical Skills

Languages: JavaScript (ES6+), SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shopify Liquid

Backend: Node.js, Express.js, REST API Development

Databases & ORM: MySQL, Prisma ORM

E-commerce Platforms: Shopify, Salesforce Commerce Cloud, Headless Commerce APIs

Authentication & Security: Email/Password Authentication, Session Management

Tools: Git, GitHub, Postman, npm

Concepts: API Integration, System Migration, Headless Architecture, Performance Optimization

Work Experience

Software Engineer,

2022 – Present

NewAge Products Inc., Mumbai, India

Tech Used: Next.js, React.js, Node.js, Express.js, Prisma ORM, MySQL, Shopify APIs, Salesforce APIs

Draft Order Portal – Order Management System

- Developed an internal order management portal using Next.js and React, enabling teams to create and manage Salesforce draft orders, processing 1K+ orders monthly.
- Designed and developed scalable REST APIs using Node.js, Express.js, and Prisma ORM to synchronise orders, carts, and customer data between Shopify and Salesforce systems with <200ms response time.
- Implemented tax, shipping, and multi-coupon discount logic, reducing manual order adjustments by 30%.
- Built invoice generation and order lifecycle tracking, improving operational visibility and order processing efficiency for internal teams.
- Optimized database queries and API response performance using Prisma ORM and query indexing, improving response times by 35%.

Centralised Business Portal - Internal Operations Platform

- Built a centralized internal platform using Next.js and React, supporting multiple operational tools and reporting dashboards used by internal teams daily.
- Developed REST APIs integrating Salesforce services and Shopify datasets, processing large operational datasets across multiple internal workflows.
- Implemented secure authentication and session management, ensuring protected access to internal applications.
- Automated operational workflows using cron-based jobs and reporting pipelines, reducing manual reporting efforts by 40%.

Shopify → Salesforce Commerce Cloud Migration

- Led backend integration for migration from Shopify to Salesforce Commerce Cloud, enabling seamless transition to a headless e-commerce architecture.
- Developed REST APIs using Node.js and Express.js to power a Next.js headless frontend, improving system

flexibility and scalability.

- Implemented data transformation pipelines to map Shopify product, order, and customer data into Salesforce Commerce Cloud schemas.
- Ensured zero production downtime during migration, maintaining uninterrupted order processing.

Trade Store – Shopify E-commerce Website

- Developed a Shopify-based e-commerce storefront enabling customers to browse products, place orders, and manage accounts.
- Built responsive UI using Next.js, React, and Tailwind CSS, improving frontend performance and page load speed.
- Integrated Shopify APIs for product catalogue, customer accounts, and order workflows, supporting large product datasets and order transactions.
- Implemented secure email/password authentication, enabling customers to track and manage their orders.

Education

Bachelor of Engineering (B.E.) in Computer Science ,
Srinivas University, College of Engineering and Technology

2018 – 2022

- CGPA: 8.4

Achievements

Received Cheers to Peers Award (2024 & 2025) for outstanding collaboration and delivery.

Hackathon Finalist – Built an interactive KBC-style quiz application under strict time constraints.

Soft Skills

- Problem Solving
- Ownership & Accountability
- Cross-functional Collaboration
- Communication
- Analytical Thinking
- Adaptability

Languages

- English
- Hindi
- Kannada
- Konkani
